

Добрый день!

- ✓ **Обратите внимание: следующее занятие, 28.05, будет проводиться с использованием платформы Zoom. Начало по расписанию - 09.00.**
План занятия:

- 1) анализ работ, выполненных студентами;
- 2) беседа по устным темам «Англоязычные страны. СК и США».

Прочитайте текст, выпишите незнакомые слова, найдите их значения в словаре, и выполните задания после текста.

Student Lifestyle in Australia

1. Australia is fast becoming a very popular destination for education. The main reasons for this are the highly competitive courses that can be undertaken, affordable fees as compared to American or European courses, living costs that are not very expensive and the myriad attractions that make Australia so perfect for students. The country has a superb climate. The people are friendly, they live in a safe and healthy environment and students from all over the world are welcomed.

2. **Accommodation.** There are lots of accommodation choices open to you. Besides living on campus there are other options like renting rooms, home-stay with/without meals, or shared rental accommodation.

3. **Recreation.** There is a lot of scope for students' relaxation and other activities. There are plenty of cafes and restaurants to eat in, there is surfing open to all and there are lots of beaches, lakes and rivers for those who love the water. There are international festivals celebrated that are a must-see for students and others alike.

4. There are lots of sports facilities and art and culture are catered for too, with galleries, museums, live arts and music etc. There are markets aplenty and shopping is always a fun experience. Probably the best attractions in Australia are its bush land and the wildlife, the outback and the rainforests. Students who have an adventurous streak will enjoy all that Australia has to offer.

5. **Work while you study.** If you have a student visa you are allowed to work on a casual basis although it's wise to remember that the job cannot be a means to fund your education as you need to devote enough time to your studies and exams. This easy earn-while-you-learn option makes Australia very attractive to students as a part-time job can fund hobbies and interests.

6. Student lifestyle in Australia offers the best: you get to study in some of the best institutions in the world, you can work to gain experience, and you can learn about the Australian way of life first-hand.
