1b. Read and match the three students, Mark, Janine and Kyra, with the courses they're doing at Manchester College.

Mark, 18

I'm doing this course because my teacher at school suggested it and this is what I want to study in the future. I'm enjoying the course because it's very different from what I usually do at school. It's very creative – you can use your imagination – and I'm learning a lot about computers.

Janine, 20

We always have theory lessons in the mornings, and then in the afternoon I work on my project. I'm organising a holiday for a company of friends. I'm preparing a plan for the journey. Right now I'm working with some holiday brochures.

Kyra, 17

We're studying the 18th Century at the moment. It's really interesting. We visit a different gallery every month and this afternoon we're at the Tate Modern. I was early, so I'm waiting here for the other students to arrive.

1c. Look at the texts again and find examples of the following:
